

Registration Form

Participants may register for individual courses or for the full Certificate Program. The individual 2-day courses are offered for one credit in pass/fail (undergraduate) or credit/no-credit mode (graduate). A certificate is only granted when participants successfully complete the two core courses, three elective courses and a mentored independent Case Study. Only a completed Certificate program will grant six graded credits which may be transferable to other universities or degree programs. Participants with a Bachelor's degree in engineering or related field from an accredited institution will be awarded graduate credits. Otherwise, undergraduate credits will be awarded. Program of study may span one or more semesters. The Case Study is a graded work and the topic must be approved per program guidelines. The Case Study must be completed within a semester following completion of the program requirements. Early registration discounts of 10% may be applied before deadline. Tuition payment by check or credit card (Visa or MasterCard only), employer voucher or purchase order (if applicable) must accompany this form. Registrations received without payment cannot be processed. Cancellation refund policy is noted below.
