

*GeoEye is the largest commercial remote sensing company in the world, formed as a result of the ORBIMAGE acquisition of Space Imaging. We currently own and operate a constellation of three earth imaging satellites: OrbView-2, IKONOS and OrbView-3.*

§

GeoEye has PART-TIME Intern opportunities at our Dulles, VA facilities. We are looking for organized, experienced, self-motivated individuals to join our fast-paced Remote Sensing Customer Support Team.

§

**As a Remote Sensing Customer Support Intern, you will:**

- ✓ Assist in the development of technical proposals required to generate requested remote sensing products.
- ✓ Handle inquiries and all aspects of task ordering (from feasibility reviews to technical solutions) for new/existing customers.
- ✓ At this time, we are looking for students with majors in Geography or related remote sensing discipline that has minimally completed their junior year from an accredited college.
- ✓ Familiarity with GIS applications, software packages and some remotely sensed data is strongly preferred.

This is a paid intern position and we invite to send your resume to:
