

THE MINERVA PROGRAM: CORPORATE, INDIVIDUAL, NONPROFIT, AND GOVERNMENT SPONSORS

Since its inception, the Minerva Program has relied on the generous support of numerous corporate, individual, nonprofit, and government sponsors to assist in the continuation and advancement of the Program. Support has come from the private sector, public-private partnerships, the public sector, foundations and individuals, reflecting the philosophy of the Program itself and its focus on public-private cooperation to promote Brazilian economic progress.

The corporate sponsors, from both Brazil and the U.S., value the results of this training program and the benefits it provides to the Brazilian participants, the Brazilian economy, and the global economy. Their support demonstrates that they recognize the importance of an efficient, transparent public sector to the continued growth of the private sector.

The Minerva Program gratefully acknowledges the support of these donors and appreciates the contributions they have made to its continuing success:

Alcoa Foundation	Anthony Correra (Sandia Asset Management)
ANEEL—Agência Nacional de Energia Elétrica	Fundação ATEC—Aplicação de Tecnologias Críticas
Carlos Moacyr Gomes de Almeida (GAFISA)	Fundação Moreira Salles
Amazon Technologies	General Electric
AT&T	Grupo Gerdau
