Info: Per GSA Advantage! information the following item is listed on 3
different awarded GSA Contracts: MK6021GAS
The awarded Contract Numbers and Contractors are as follows:
GS-35F-4188D - Technology Integration Group
GS-35F-0653P - Goldenram
GS-35F-0736P - Shoplet.com

To the best of my knowledge this part number is a Toshiba Hard Drive, and such
description is included in the GSA Advantage item description, yet only one of
the above cited contracts cites Toshiba as the manufacturer.
What I am requesting is a copy of the Letter of Supply from Toshiba that each
contractor should have furnished to GSA when this item was awarded under their
contract. Note: I am not requesting any confidential, proprietary or pricing
information only a copy of the Letter of Supply coverletter itself where the
manufacturer offers to furnish the item to the contractor for the life of the
contractor's awarded GSA contract, or language similar to such.
If such a Letter of Supply was not provided by the manufacturer through the
contractor, or directly to GSA by the manufacturer, I request an explanation
as to the process of how this item was awarded to each contractor without the
required documentation, and why Toshiba is not identified as the manufacturer
by 2 out of the 3 contractors.
Thank you.
