Subject: FOIA Requests for Inundation Maps/Emergency Evacuation Plans

Return receipt

This was one of the topics of discussion at our FOIA Officers' meeting yesterday. One of the handouts was the exemption 2 language, as well as Low 2 and High 2 information. The other handouts was an 10/15/01 memo from USDOJ, Office of Information and Privacy regarding the "New Attorney General Memorandum on the FOIA," and a printed page from the DOJ Office of Information and Privacy home page. The other issue discussed was the FOIA annual report and I will send you a separate e-mail on that shortly. I will be faxing you the handouts today, because we were told that DOI mailroom is only delivering internal mail. So if you need to send me any illustrations 1, 2, or 3 in the next few days, just fax them first and then put them in the mail.

On another note, someone announced that ASAP meeting will be held in Las Vegas on March 3-5, 2002. I would encourage you to check out the ASAP webpage to confirm the meeting location and date.

Subject: FOIA Requests for Inundation Maps/Emergency Evacuation Plans

Gloria/Terry/Debbie--

Bob Moll, SOL-GL, has advised that the best approach to take in responding to the subject FOIA requests is to withhold the inundation maps and the emergency evacuation plans for the dams under FOIA exemption "high 2". You should consult with your Designated FOIA Attorney and the bureau's security officer in preparing your response. Moreover, make sure that your Designated FOIA Attorney surnames the response before sending the package to Roger Phillips, Office of Managing Risk and Public Safety, OS, for approval (see my e-mail of Oct. 3 RE: Revised Procedures for Processing FOIA Requests/General Inquiries RE: terrorist attacks, effects on DOI, US actions, security issues, etc. Susan Rush should have forwarded a copy of my e-mail to you earlier this week.

Please have your FOIA Attorney call Bob on 202/208-5216 if he/she has any questions. Thanks.
