

Commencement Photography

Commencement photographs will be taken of each graduate, as they are individually congratulated. **photograds.com** is pleased to provide this complimentary service as each graduate crosses the dais during the commencement ceremony.

Each graduate will also be photographed as they approach or exit the dais.

Complimentary photograph proofs will be mailed to each graduate's home address within one week of the commencement ceremony. Please allow 7-10 days for this mail offer to reach your home address. There is no obligation to purchase. Once you receive the photograph offer in the mail, your last name and the customer number provided in this mailing will allow you to view your photograph proofs online at www.photograds.com

If a valid email address is available to the photographer, a link to commencement photograph proofs will also be sent to participating graduates via email.

Photograds.com provides an unconditional money-back guarantee.

Please do not contact the school with inquiries related to photographic services.
