Source: The Brazilian Institute of Geography and Statistics (IBGE)

*Unemployment Rate: the number of people seeking employment as a percentage of the total work force, aged 15 years or older. The survey encompasses the week prior to the week within which the interviews are conducted.

** The six metropolitan regions are: Recife, Salvador, Belo Horizonte, Rio de Janeiro, Sao Paulo and Porto Alegre.

*** The IBGE has changed its methodology. Previously it considered the unemployed who were fifteen years of age or older. Beginning January 2003, this data includes the unemployed who are ten years of age or older.

Last Updated: February 2009
