

## **THE MINERVA PROGRAM: PARTICIPANTS BY INSTITUTION FEBRUARY 2005**

The Minerva Program was initially established to focus on the informational needs of Brazilian civil servants directly involved in financial issues at the federal level. However, since its inception the Program has grown to encompass a broad range of participants involved in economic issues in a variety of government agencies and institutions, including those at the federal, state, and municipal levels. This diversity has provided for lively intellectual exchanges among participants, while allowing these civil servants to develop a new network of resources to utilize upon their return to professional life in the Brazilian public sector.

The roster of institutions and the number of participants they have sent is an indication of the broad appeal of the Minerva Program to administrative professionals throughout the Brazilian public sector.
