Dear Ms. Vitt:

This letter is to again express my sincere appreciation for making available to me the Case Studies from the Tower Commission. As you noted that there are other materials, specifically, all the documents pertaining to the Case Studies for TWA-847, the Achille Lauro and Opening to China which have not been made available to researchers yet. This letter will also serve as a request that these documents be made available to me, pursuant to the terms of the Freedom of Information Act, codified at 5 U.S.C. § 552. Given the distances, naturally, I am interested in obtaining photocopies of these materials. Please inform me of their availability according to the terms of the Freedom of Information Act.

Thank you again for your assistance.

Sincerely,

Anthony Wanis St. John
