I am making a FOIA request for documents included in certain rulemaking dockets, described below, maintained by OIRA. I am looking for any documents (correspondence, faxes, memos, memos regarding telephone conversations, etc.) from OIRA to the EPA, or from the EPA to OIRA, regarding the nine proposed rules described below. I am particularly interested in documents that indicate whether OIRA requested any changes to the proposed rule, if the proposed rule was withdrawn, if the proposed rule was returned to EPA for any reason, etc.. (All these proposed rules were ultimately adopted at the final rule stage.) I will pay all appropriate costs in the search, copying, and mailing of these documents. Either hard copies or electronic e-mail copies are fine. Please let me know if I can provide you with any further information. If I have sent this to you in error, please forward it to the appropriate person. I thank you very much for your assistance.

**1. Oil and Gas Extraction Point Source Category, Offshore Subcategory; Effluent Limitations Guidelines and New Source Performance Standards. OMB Number 2040-A281.
