MEMORANDUM FOR BILL COLBY

SUBJECT: BUDGETARY SUPPORT FOR THE CABINET COMMITTEE ON INTERNATIONAL NARCOTICS CONTROL

The Cabinet Committee on International Narcotics Control was created September 7, 1971, by the President to centralize his attack on the international drug traffic.

The Committee does not have a separate budget.

Salary and administrative support for its small, full-time staff has been provided by the Executive Office of the President. Other expenses are being charged to the constituent agencies and departments.

The Bureau of Customs, BNDD, and AID/Office of Public Safety have provided support to date.

The CIA should be prepared to defray not more than fifteen thousand dollars in overseas travel expenses for Cabinet Committee staff during the remainder of FY-1972.

Walter C. Minnick, the Committee's Staff Coordinator, can be contacted for further details.

Thank you for your assistance.

MEMORANDUM FOR: Deputy Director for Management and Services	
SUBJECT : Contacts with Individuals Named in the Watergate Matte	er
1. I am addressing this to you instead of to the Director of Central Intelligence since I doubt that the information contained herein is of such significance to warrant his interest and because it has been on record with the Agency since July 1972. However, if you feel that the information is of such interest that it should be forwarded to the Director I shall put it in the proper format to do so.	
2. My only contact with anyone named in connection with the Watergate and related matters was through a former Agency employee now retired and living in Winterhaven, Florida. In December 1971 called me from Florida and advised that he wanted to get in touch with Howard Hunt. He said that he did not have Hunt's home phone number and that it was probably unlisted but that since Hunt was a former employee, could I contact Hunt and ask him to give a call. I had only met Hunt once about 10 years before but I agreed to relay the messa; I called Howard Hunt at his home and told him that did not have his home phone and requested he call Mr. Hunt thanked me for relaying the message and said that he would call This seemed of little consequence to me in December 1971 but in July 1972 of the Office of Security contacted me in regard to the FBI investigation of the Waterg situation. At that time I informed of the telephone call from In December 1971. Attached is a copy of a Memorandum for the Record prepared by as a result of our conversation.  3. In the summer of 1972 I took my family to Disney World in Florida and took that occasion to drop in to see told me in a private conversation that he had been interviewed three or four times by the FBI in connection with the Watergate affair and he related to me his contact	ge. s

with Howard Hunt. On 19 July 1972 after my return from Florida I reported this conversation to the Director of Security and made it a Memorandum for the Record. This memorandum was sent to Mr. Colby and a copy of the memorandum is attached.

4. Other than knowing Mr. McCord through his employment with the Agency and meeting Howard Hunt once in about 1959, I do not know nor have I had any contact with any individuals named or knowledge of related matters now receiving attention in the press.

SUBJECT: Charles W. Kane
1. Last week Special Agent Arnold Parham of the FBI contacted the Acting DD/OS. He asked whether or not the Subjects worked for the Central Intelligence Agency. Previously, requests of this nature were followed up by the FBI with an interview of the subjects.
2. I briefed Mr. Colby who is the Agency's focal point on the "Watergate" case and the Acting DD/S of the FBI inquiry. Mr. Colby suggested that we determine the extent of involvement and indicated that we advise the Bureau of their employment.
3. When Agent Parham was again contacted and advised of the Subjects' employment with the Agency, he indicated that the Bureau does not wish to interview them.
4. The office of the DD/PS will interview in the fire the same fashion as was previously interviewed.
5. I called Mr. Kane both at his office and his residence and learned that he is in Florida and will return to duty on 17 July. I called Mr. Kane this morning to advise him of the inquiry.

OFFICE OF THE CHAIRMAN

MEMORANDUM FOR: Director of Central Intelligence

Support Furnished to Elements of the Government

Outside of the Intelligence Community

The Interagency Audio Surveillance Countermeasures Training Center (ITC) was established at the instigation of this Committee and opened in late 1968 under the executive management of CIA. The need for such a school had been recognized by the National Security Council's Technical Subcommittee as far back as 1962 and was reemphasized by the Security Committee of the USIB in their October 1964 report titled "Damage Assessment of the Technical Surveillance Penetration of the US Embassy, Moscow."

Membership on the TSCC has been confined to agencies and departments who are represented on the USIB. From time to time other elements of the Government have indicated their concern over the audio surveillance threat and asked for membership on the Committee. In all cases they have been turned down with the suggestion that they take advantage of the TSCC's product either through liaison with the security organizations of the Committee's members or by nominating students to attend the ITC. During CY-72 the following students were trained at the ITC:

Central Intelligence Agency	10
Defense Intelligence Agency	5
Department of the Air Force	25
Department of the Army	50
Department of Justice (BNDD)	; <b>4</b>

The ITC has furnished training only to employees of the agencies and departments of the Federal Government. State and local police departments have not been detailed to the ITC.

- 2. System: CIA Retirement and Disability System
- 3. Grade and salary at time of retirement: GS-15, Step 8 \$28,226
- 4. Creditable civilian service used in computing annuity:
  - 17 May 1948 to 8 June 1948 Economic Cooperation Administration
  - 9 June 1948 to 19 February 1949 State (ECA)
  - 8 November 1949 to 30 April 1970 CIA

At retirement - \$1,020 per month

At present - \$1,181 per month (which includes cost-of-living increases since date of retirement)

6. At the time of retirement Mr. Hunt did not elect survivorship benefits. This meant that upon his death, his wife would not draw a survivorship annuity. By letter of 5 April 1971 he raised the question of changing his election but was informed by the General Counsel on 6 May 1971 that this could not be done. By letter dated 5 May 1972 Mr. Hunt asked Mr. Houston to raise with the Director the possibility of being recalled to duty for a short period of time, after which he could retire again and elect survivorship benefits. By letter of 16 May 1972 Mr. Houston advised Mr. Hunt that to call him back to duty solely for the purpose of permitting him to change survivorship benefits would be in violation of the spirit of the CIA Retirement Act.

This document without the material on the US was updated in February 1969 and copies were sent to the Vice President and Dr. Kissinger. SUPPORT: Directication of CCI Paper on Ecudent Dissidents

- Intelligence Community—The paper Resiless Youth is sensitive because of its sobject matter, because of the likelihood that public emposure of the Agency's interest in the problem of student dissidence would result in considerable notoriety, particularly in the university world, and because pursuant to Mr. Rester's instructions, the author included in his text a study of student radicals in the United States, thereby exceeding the Agency's charter. We have sanitized the paper for dissimination to the members of the President's Cabinet and within the Intelligence Community by eliminating altogether the chapter which discusses Students for a Democratic Society (SDS) and by striking from the Prospects section all mention of SDS.
- We believe that the basic test should be further actual for the purpose of eliminating even the most casual reference to the domestic scene-lest someone infer from such a chance reference that the original paper had contained a section on American students. The nineteen country chapters which form Part II of Restless Youth can be disseminated within the Covernment, provided that the controls appropriate to their classification are observed. To do the editing and reprinting re-wired would take several days at least.
  - 3. Release to the academic world or to the public-For the reasons set forth above, we believe that release of the basic test would harm the Agency. The country chapters could not be released without first being rewritten to eliminate all classified information. Once this was done,

SECRET.

they would duplicate information already available in the op a press. There is no lock of evert literature on the subject of student dissent; virtually every publisher includes at least one title on his current listing. Moreover, other agencies of government, such as Health, Tructton and Telfare, have sponsored research on the subject and are prepared to publish their lindings. Consequently, we recontend against public release.

MEMORANDUM FOR THE RECORD

SUBJECT: Research Project on Robert Vesco

1. On 16 October 1972 Messrs. Breckinridge and in the course of a Survey, were briefed on activities of the Atlantic/Pacific Division of the Office of Economic Reports. One project cited was a query from the Director, apparently at the request of Secretary Shultz, to the effect, "What do we know about Vesco," the man then running IOS. Two of OER's analysts were assigned to the project and, working through the Domestic Contact Service, spent a day going over the files of the Securities and Exchange Commission. There apparently was some contact also with EUR Division of the Deputy Directorate for Plans and with the Office of Current Intelligence.

2. The information above is based on rough notes and obviously is sketchy. It is cited now not to suggest any wrongdoing but because of the current publicity about Vesco and the probability of continuing probes into the subject by the press and the courts.

MEMORANDUM FOR: Director of Central Intelligence

FROM : Deputy Director for Intelligence

SUBJECT : Activities Possibly Outside CIA's

Legislative Charter

1. This memorandum responds to your instruction to report any activities which might be considered outside CIA's legislative charter.

2. All Office and Staff chiefs in the Intelligence Directorate have reviewed the past and present activities of their components. I have received responses from all of them, and none reported any activities related to either the Watergate affair or the break into the offices of Ellsberg's psychiatrist. Although contacts with three of the people allegedly implicated in these incidents were reported, these contacts were on matters other than the two improper activities:

Hunt:

Col. White, Richard Lehman, and I talked to Hunt in late 1970 regarding his preparation of a recommendation in support of the Agency's nomination of R. Jack Smith for the National Civil Service League Award.

Mitchell:

While Mr. Mitchell was Attorney General, an OCI officer was assigned the task of providing him with daily briefings on foreign developments.

3. In accordance with my instructions, several Offices reponded activities which might appear questionable to outsiders. Their responses are attached. Most of these activities are clearly within the Agency's charter, but there are a few which could be viewed as borderline.  - DCS accepts information on possible foreign involvement in US dissident groups and on the narcotics trade when sources refuse to deal with the FBI and BNDD directly.  - DCS, for six months in late 1972 and early 1973, was acquiring telephone routing slips on overseas calls.  - NPIC and COMIREX review satellite imagery from NASA programs to identify photography too "sensitive" for public release.	<u>¥ 0</u>	had frequent contacts with Young during the summer of 1972 in connection with Executive Order 11652 and the implementing NSC directive. <b>-</b> .	NPIC has examined <u>domestic</u> coverage for special purposes such as natural catastrophies and civil disturbances.	
-	OCI, in 1967 and 1968, prepared intelligence memoranda on possible foreign connections with the US anti-war movement and world-wide student dissidence (including the SDS) at the request of the White House.

-	FBIS has on occasion supplied linguists to work directly for another agency, e.g., to the FBI to translate Arabic in Washington.

SUBJECT:

DCS Domestic Activity

To the best of my knowledge, DCS has not engaged in any activity outside the CIA charter or that could be construed as illegal. Some of the functions that we perform under HR 1-13f (i) of providing operational support within the US to all elements of CIA and to the USIB-member agencies, however, are perhaps borderline or could be construed as illegal if misinterpreted. For example:

SUBJECT : Activity Related to Domestic Events

- 1. OCI provided current intelligence briefings to John Mitchell as Attorney General. With the approval of the DCI, this practice began in the pre-inaugural period in New York and continued until Mr. Mitchell's resignation as Attorney General. The OCI officer assigned to this duty had a daily appointment with Mr. Mitchell in his office at Justice.
- 2. The briefings provided were strictly on foreign intelligence, and were a legitimate service for CIA to provide to an official advisor to the President who sat on, among other bodies, the 40 Committee. It must be presumed, however, that our man's daily visits were known and speculated on elsewhere in Justice. The problem comes in the potential press treatment: "CIA Officer in Continuous Contact with Mitchell."

SUBJECT : Activity Related to Domestic Events

- 1. OCI began following Caribbean black radicalism in earnest in 1968. The emphasis of our analysis was on black nationalism as a political force in the Caribbean and as a threat to the security of the Caribbean states. Two DDI memoranda were produced on the subject: "Black Radicalism in the Caribbean" (6 August 1969), and "Black Radicalism in the Caribbean-Another Look" (12 June 1970). In each a single paragraph was devoted to ties with the US black power movement; the discussion primarily concerned visits of Stokely Carmichael and other US black power activists to the Caribbean and other overt contacts.
- 2. In June 1970, Archer Bush of OCI was asked to write a memorandum with special attention to links between black radicalism in the Caribbean and advocates of black power in the US. The record is not clear where this request originated, but it came through channels from the DCI. The paper was to be treated as especially sensitive and was to include material provided by the Special Operations group of the CI Staff. The CI Staff material was voluminous but did not provide meaningful evidence of important links between militant blacks in the US and the Caribbean. This, in fact, was one of the conclusions of the paper. The memorandum was produced in typescript form and given to the DCI.

# SECRET CIA INTERNAL USB ONLI

3. For several months in the first half of 1968 the Caribbean Branch wrote periodic typescript memoranda on Stokely Carmichael's travels abroad during a period when he had dropped out of public view. Our recollection is that the memoranda were for internal CIA use only, although a copy of one was inadvertently sent to the FBI.

- 1. In late spring of 1968 Walt Rostow, then
  Special Assistant to the President for National Security
  Affairs, tasked the DCI with undertaking a survey of
  worldwide student dissidence. Confronted by timult at
  campuses like Columbia and mindful of the violence
  accompanying student outbursts at Berlin's Free University
  and elsewhere, Rostow sought to learn whether youthful
  dissidence was interconnected: spawned by the same causes;
  financed and hence manipulated by forces or influences
  hostile to the interests of the US and its allies; or likely
  to come under inimical sway to the detriment of US interests.
- 2. The paper was prepared by of OCI with the assistance of the CA and CI Staffs. The DDI, D/OCI, and met with Rostow to elicit the reasons for his or the president's concerns and to agree on the sources to be examined, the research methods to be followed, etc.
- 3. Written during the summer of 1968, the most sensitive version of Restless Youth comprised two sections. The first was a philosophical treatment of student unrest, its motivation, history, and tactics. This section drew heavily on overt literature and FBI reporting on Students for a Democratic Society and affiliated groups. In a sense, the survey of dissent emerged from a shorter (30 page) typescript study of SDS and its foreign ties the same author had done for Mr. Rostow at the DCI's request in December 1967. (We no longer have a copy.)

- 4. Because of the paucity of information on foreign student movements, it was necessary to focus on SDS which then monopolized the field of student action here and abroad. A second section comprised 19 country chapters—ranging from Argentina to Yugoslavia—and stood by itself as a review of foreign student dissidence.
- 5. Because SDS was a <u>domestic</u> organization, the full paper <u>Restless Youth</u>, <u>including</u> the essay on world-wide dissent went only to nine readers. A copy may be in the Johnson Library.
- 6. Following the paper's favorable reception by the President and Mr. Rostow, the DCI briefed the NSC on student dissent. The sensitive version subsequently was updated and sent to the White House in February 1969.
- 7. The less sensitive text was disseminated in September 1968 and then updated and issued again in March 1969 and August 1970.

SUBJECT : Activity Related to Domestic Events

- 1. In late 1967 OCT participated in the preparation of several short intelligence memoranda dealing with the foreign connections of US organizations and activists involved in the anti-war movement. The main purpose of these reports, prepared at the request of the White House, was to determine whether any links existed between international Communist elements or foreign governments and the American peace movement. The conclusion reached was that there was some evidence of ad hoc contacts between antiwar activists at home and abroad but no evidence of direction or formal coordination.
- 2. In October 1967 President Johnson expressed interest in this subject and ordered a high level interdepartmental survey. In response to his personal request to the DCI, Mr. Helms asked the CI Staff to collect whatever information was available through our own sources and through liaison with the FBI and to pass it to OCI, which was directed to prepare a memorandum from the DCI to the President.
- 3. A book message requirement was sent to all stations to report whatever information was on hand relevant to this subject. Although agent reports on Communist front operations overseas were of some value, the primary source of information on the activities of US activists—and that was quite limited—was sensitive intercepts produced by NSA, which had been similarly tasked by the White House.

- 4. A draft memorandum was jointly prepared by OCI and CI Staff and forwarded to the DCI. He passed this typescript memo, dated 15 November 1967, to the President personally. The White House copy is now in the files of President Johnson's papers at the library in Austin.
- 5. Brief follow-up memoranda were prepared and forwarded to the White House on 21 December and 17 January 1968. According to our best recollection, no further finished intelligence reports on international connections of the peace movement were produced.

SUBJECT: Contacts with David Young

1. In the summer of 1972, I had frequent contacts with David Young. He was in this building under my control once. These contacts related solely to Executive Order 11652 and the NSC directive concerned therewith. Young was apparently at the time in the process of drafting the NSC directive. The visit to the building under my control was for a briefing on CRS processes for storage and retrieval of documents and is apparently reflected in the paragraph of the directive concerned with the Data Index. I visited him in his White House office at least twice in the company of an inter-Agency group concerned with the Data Index.

2. In August of 1972, also visited Mr. Young's office in the company of an inter-Agency group to discuss CIA compliance with the data index instructions. To the best of my knowledge no one in CRS had any contact with Mr. Young in his role as a "plumber."

SUBJECT: Involvement In Domestic Affairs

- The CIA Library has several informal snag files intended to aid the librarians in answering the kinds of questions that they know they will get on a continuing basis. An appointments file is a collection of clippings on appointed federal officials: who holds what job when and what is his background? The extremist files are a collection of folders on a variety of organizations and a few people with intricate organizational links. Any sort of extremism is grist for these particular files. And a few persons, e.g., Rap Brown and Eldridge Cleaver, have dossiers consisting almost exclusively of clippings from public media. These files are unclassified and consist mostly of clippings from the public press: U.S., foreign, underground, scholarly.
- 5. I am not aware of any other kind of involvement in domestic activities that is not related to development of techniques or logistics or legitimate training of CRS personnel.

Questionable NPIC Projects

### Leaks of Jack Anderson

In January 1972, NPIC performed image enhancement techniques on TV tapes of a Jack Anderson show. The purpose was to try to identify serial numbers of CIA documents in Anderson's possession. The request was levis on NPIC through the Office of Security.

### The Poppy Project

NPIC has provided the services of one PI to assist an interagency effort to detect poppy cultivation. In addition the Center has provided the contractual mechanism in support of the Bureau of Narcotics and Dangerous Drugs for a multispectral crop study by a private company.

# 3. Reviews of NASA Collected Imagery

NPIC has and continues to conduct reviews of satellite imagery from NASA programs to identify 'sensitive' frames of photography not releasable to the public and to ascertain the intelligence potential of the imagery. This service has been provided for GEWENI and ERTS photography and preparations are underway for review of SMY LAB imagery.

# Peaceful Uses of Satellite Imagery

NPIC has been requested to provide a number of looks at domestic coverage for special purposes. Examples include:

- Santa Barbara Oil Spill
- Los Angeles Earthquake Sierra Snow (flood threat)
- Current Mississippi Floods
- Hurricane Cammile Damage on the Coast of the Gulf of Maxico
- Civil Disturbance in Detroit
- OEP U.S. Data Bash

Sensitive Activities

- l. FBIS has been engaged in no activities related to the Ellsberg and Watergate cases.
- 2. FBIS operations occasionally extend to the domestic arena. time to time, FBIS linguists are made available to DDO or Office of Communications components for special operations (usually abroad) involving close-support SIGINT work or translation of audio take. On one occasion recently DDO, on behalf of the FBI, requested the services of several FBIS linguists skilled in Arabic to work directly for the FBI on a shortterm project here in Washington. The arrangements were made by Mr. Oberg of the DDO CI Staff. He said the project was very highly classified and that FBIS participation was approved by Mr. Colby and the Director. FBIS participation was approved by the Director of FBIS after a check with the ADDI. Other examples of sensitive linguistic support work are help in the handling and resettlement of defectors, the recent assignment of an employee to the Bureau of Narcotics and Dangerous Drugs to transcribe recordings in a rare Chinese dialect, and the detailing of another Chinese linguist on two occasions to assist in the U.S. military training of Chinese Nationalist cadets.
- 3. Within its responsibility for monitoring press agency transmissions for intelligence information, FBIS publishes and distributes some material which falls in a "gray" area of copyright protection, libel, and privacy of international communications. Press services controlled by national governments and transmitted by radioteletype without specific addressees, e.g. the Soviet TASS service and the PRC's NCNA, are monitored by FBIS and the material is disseminated without restriction. The legality of this has been affirmed by decisions of the Office of General Counsel.

1 3 . 35 2

The routine FBIS monitoring of foreign radio broadcasts often involves statements or speeches made by U.S. citizens using those radio facilities. Examples are statements made or allegedly made by American POW's in Hanoi, by Jane Fonda in Hanoi and by Ramsey Clark in Vietnam. At the request of FBI and the Department of Justice, and with the approval of the CIA Office of General Counsel, we have on occasion submitted transcripts of such broadcasts to the Department of Justice as part of that Department's consideration of a possible trial. In such cases, we have been required to submit names of FBIS monitors involved. presumably because of the possibility they might be required as witnesses. (In one case in 1971, an FBIS staff employee was directed to appear as an expert witness in the court-martial of a Marine enlisted man charged with aiding the enemy in a broadcast from Hanoi.) FBIS views all this with misgivings. Monitoring of such broadcasts is incidental and we rue attribution of their news to FBIS, and we should not be considered policemen maintaining surveillance of traveling Americans.

Specific use is not always available to this office and should properly come from the requesting office who can provide the details. U.S. alias documentation use in the United States is approved by the Office of Security and normally has the concurrence of Central Cover Staff or FI and CI Staffs. Requests received by this office from outside the Clandestine Service are approved by an appropriate office of the DDO.

A review of this office's document support files for the period 1 January 1972 to date indicates that the following number of U.S. alias document requests were fulfilled for probable use in the United States. The statistics below are broken down by requester:

MEMORANDUM FOR: Deputy Director for Science & Technology...

SUBJECT

TSD Support to Other Agencies

- l. Technical Services Division's charter (CSI 1-8) requires that it provide technical assistance to both CIA operations and other activities as may be directed by the Deputy Director for Operations.
- 2. Over the years the chief non-CIA recipients of this support have been the Department of Defense, the Federal Bureau of Investigation, Bureau of Narcotics and Dangerous Drugs, Immigration and Naturalization Service, Department of State, United States Postal Service, Secret Service, Agency for International Development, and the White House.
- 3. While varying widely among the different recipients, these services have included training and materials, and in a few instances participation in the fields of audio and visual surveillance, secret writing and related communications, personal protection, alias documentation and questioned document examination, disguise, concealment devices, electronic beaconry, illicit narcotics detection, and counter-sabotage/terrorism.
- 4. In most instances requirements for this support are received by TSD through higher echelons (Office of the Director or Deputy Director for Operations). Unless the service involved is a trivial or continuing one, the request is referred to the Foreign Intelligence Staff Departmental Coordination Group for coordination and approval at the appropriate Agency levels. Approval within TSD by the Chief of Operations or Development and Engineering and the Chief of TSD or his Deputy also is required.
- 5. The attachment lists the primary services provided to the organizations named in Paragraph two.

E2 IMPDET CL BY 059098

. 2 ...

6. Issuance of forged personal identity documentation by ISD is controlled according to two broad criteria: type of requester; and type of documentation requested. A request for denied area documentation from a DDO Area Division is digathonored after proper validation. Free world documentation may require some extra coordination however.

- 7. Unless ordered otherwise by higher Agency authority, no U.S. documentation is issued by TSD Headquarters without prior coordination with the Office of Security and the Central Cover Staff. TSD Regional Bases require at least the validation of U.S. documentation requests by the COS, or his designated representative, of the requesting Station. Because it could be used
  U.S. Birth Certificate is issued without approval of the DDO via Central Cover Staff. Backstopped major credit cards are issued by Office of Security, not TSD.
- 8. Provision of forged documentation to non-DDO requesters, whether they be CIA or other Agency requesters, always requires approval of non-TSD offices. Support to the military for instance would be validated by FI Staff/Departmental Coordination Group at Headquarters or by the COS overseas having responsibility for coordination of the operation. BNDD requests are coordinated with DDO/NARCOG. Requests for documentation of Immigration and Naturalization Service is coordinated via the Alien Affairs Staff.
- 9. Authentication items are issued on a loan basis and must be returned to TSD or accounted for. After any documentation has been issued, TSD retains photographs and records of such support until the documentation has been returned to TSD. If the material is not returned after a reasonable time, the requester is reminded of the outstanding documentation.

Contacts with Domestic Police Organizations

- 1. In Dec. ber 1968, July 1969 and December 1970, SDB provided basic countersabotage familiarization training for selected members of the Washington metropolitan area police departments. The training was given at the Fairfax County police pistol and rifle range. Authorization for the training came from DDP and Chief, Office of Security.
- 2. On occasion during the past few years, under the auspices of the Law Enforcement Assistance Administration of the Department of Justice and with the approval of CI Staff and Office of Security, SDB provided training and familiarization to police officers of several domestic police departments in the uses of the Explosives Residue Detection Technique and Trace Metals Detection Technique. These techniques had been declassified and are currently available to the law enforcement community. The National Bomb Data Center publishes periodic guidance in their uses.
- 3. In order to augment the SDB mission responsibilities in the field of countersabotage and counterterror, SDB officers have in the past two years visited, under appropriate covers, the explosives disposal units of the New York City police department, Dade County (Miami) Florida Dept. and the Los Angeles Police Dept. Also, in March 1973, two SDB officers attended the Explosives and Ordnance Disposal Conference in Sacramento, California, sponsored by LEAA. When the recent letter bomb menace began in September 1972, our liaison with the NYCPD bomb squad paid off in that we had complete information on letter bomb construction in hours, enabling the Agency to make worldwide dissemination within a day.

Repeated Survey of ORD for Non-Foreign Intelligence Activities

The 7 May survey has been repeated and refined with respect to all ORD services or dealings with other agencies on domestic, non-foreign matters. addition, this report covers all our activities dealing with the research and development of intelligence equipment for foreign use which has been tested in the United States and might have collected domestic information. Again, each member of ORD available today was asked either directly or through his supervisor to provide the above requested information, whether he was directly involved or not. We have used all diligence to search our records available to us during this time period to ensure this is a complete and factual list.

#### DOMESTIC TESTS FOR AGENCY RESEARCH AND DEVELOPMENT EFFORTS

- 1. As a normal part of ORD's efforts in the research and development of equipment and techniques for Agency applications in foreign intelligence, we conduct experiments and tests in the United States. Clearly, the design and development of our intelligence equipments can be done more economically and more securely in this country. Although most of the tests of our R&D equipments are performed in closed laboratories or in secure areas simulating the foreign environment, some of the tests and experiments, of necessity, reveal domestic information.
- 2. A review of the surveillance equipment or techniques which have at some time or other been exposed to domestic testing is as follows:
  - a. Laser Probe About 1967, the laser probe developed by ORD was tested by TSD in San Francisco under very closely controlled conditions. The ORD Project Officer witnessed portions of the test. Recordings that were made of laser probe output were carefully controlled as classified material and it is believed that the tapes have long since been destroyed.

Study - GRD undertook to determine the personality structure of defectors during the period 1966-69. The work primarily involved an analysis of the open literature on known defectors. An ancillary effort was concerned with a study of the phenomenon of defection itself, i.e., leaving one religion for another, or changing one set of political beliefs for another. The work was conducted at Stanford University.

Under carefully controlled conditions, some U.S. microwave communications were recorded and passed through the intercept system under test to prove quality of performance. All intercept material connected with this was destroyed within a few weeks of the time of intercept and the material was never checked for substantive content.

SUBJECT:

Telecon this morning concerning any OSA activities which could put the Agency into an embarrassing situation.

- 1. There are no missions which we have flown during the last four years with which I can associate the result directly to any activity potentially embarrassing to the Agency. There were a number of missions flown that indirectly have the potential for this embarrassment. Bear in mind that once we turn the film over to NPIC or any other agency, we have no control over subsequent distribution.

  - a. Category A: These are missions flown in the U.S. that are very similar to the potential that you discussed with me using the example of the Santa Barbara oil disaster.

OEL-010-73

MEMORANDUM FOR: Deputy Director for Science and

Technology

SUBJECT:

Policy Regarding Assistance to Agencies Outside the Intelligence Community on

Speech Processing Problems

1. Recent public concern over Agency affiliations with law enforcement activities has made me wary of offering speech processing assistance to various other government agencies. My concern here is restricted to government activities outside the intelligence community. Because of a scientific community awareness of the expertise of members of OEL in speech processing problems, we are often asked by individuals in government for help on various speech problems. The requests are usually informal on a person-to-person basis. While most of these contacts involve only an exchange of unclassified information, several have involved the use of laboratory resources.

2. Contacts have come from the FBI, Attorney General's office, Bureau of Narcotics and Dangerous Drugs (BNDD), Post Office, and the Treasury Department. Of the above, assistance to BNDD had been specifically sanctioned by Mr. Helms. In one recent instance where a noisy tape was to be used in a court case, care was taken to insure that the processing of the tape was done entirely by a BNDD employee even though it was done in an Agency laboratory using the Agency's Coherent Spectrum Shaper equipment.

OEL-010-73 Page 2

3. Providing services of this kind to other agencies has not as yet imposed a significant worklead on us and there is a benefit to us in that such contact enables the staff to test techniques and equipment on a variety of speech problems. Informal interactions at the technical level are fruitful in terms of helping us to accomplish Agency goals. Hence we would be willing to continue to support other departments on an ad hoc basis, but would appreciate your guidance re the wisdom of OEL's involvement in "domestic" activities.

## 9 July 1970

The Director advised the DD/I that White House staffer Houston and Presidential Counsellor Pat Moynihan thought well of the memorandum on "Black Radicalism in the Caribbean."

#### 10 July 1970

Maury briefed on his meeting yesterday with Congressman Richard Ichord, Chairman of the House Internal Security Committee, who had asked what we are doing to investigate "security leaks" connected with press accounts of Lon Nol's having sold rice to the Communists and having engaged in an attempted deal with Hanoi. Maury briefed on his explanation of why we are doing nothing, since such reports are not exclusively confined to our information.

#### 1 September 1970

Maury noted that the Director sent a letter to Congressman Moss on telephone monitoring practices.

#### 3 September 1970

The Director noted a 1 September memorandum from John Bross on Daniel Elsperg (sic). He asked the DDS to lift his clearances and to make this fact known in security channels.

#### 15 October 1970

DDS reported that the Weathermen have declared this month for their fall offensive and have mentioned the Agency as a target for bombings and kidnapping. He briefed on precautionary measures adopted and asked senior officers to vary their route to and from work, and to report any peculiar telephone calls or unusual events around their residence.

#### 28 October 1970

DDP reported that the FBI desires to check for fingerprints on all cryptogram messages mailed to high Government officials. The messages will then be passed to NSA for exploitation. # DDP requested that Agency personnel who receive such messages pass them to him for transmittal to the FBI.

Copy given to Bon Evens 5/30/13

## 10 December 1970

DDI noted press accounts of FBI Director J. Edgar Hoover's 19 November statement that the Black Panthers are supported by terrorist organizations. He said that we have examined the FBI's related files and our own data and find no indication of any relationship between the fedayeen and the Black Panthers. He provided the Director with a memorandum on this topic.

#### 23 December 1970

Executive Director called attention to the President's 21 December memorandum on "Disclosures of Classified Information and Coordination and Clearnice of Official Statements," which is believed to be the result of representations by the Director and Admiral Anderson. Executive Director said that he will meet with selected Executive Committee Members next week to discuss the memorandum's implications and to develop recommendations for action by the Director in view of the special responsibilities placed on him by the President.

## 29 December 1970

Executive Director reminded Executive Committee participants about the meeting involving most of them this morning on the President's directive on disclosure of classified information.

#### 30 December 1970

Executive Director briefed on the results of yesterday's meeting on what the Director now needs to do in pursuance of the Presidenc's directive on disclosure of classified information. He will outline in the Director's briefing book actions which are to be taken.

## 14 January 1971

Bross said that he and Bronson Tweedy will have lunch today with General Bennett, Director of DIA. The Director said that he might ask Bross to take along a copy of his letter and guidance on the Disclosures of Classified Information and Coordination and Clearance of Official Statements but that he first wishes to clarify with the Executive Director some of the language in the guidance section.

## 18 January 1971

Maury said that he anticipates a number of questions from the Hill on the attached article by Jack Anderson in today's Washington Post, "6 Attempts to Kill Castro Laid to CIA."

Houston related that he will have lunch today with Assistant Attorney General Robert C. Mardian to discuss the Director's guidelines on the disclosure of classified information.

Bross related that Parrott met with General Bennett to review the Director's letter on disclosure of classified information and said that General Bennett will now discuss it with Deputy Secretary Packard, who may in turn review it with Secretary Laird. The Director asked to be advised of Secretary Packard's reactions and said that he wants to check the final guidance with Secretary Laird and with someone in the White House before it is issued.

#### 23 February 1971

DD/P called attention to Jack Anderson's column in today's Washington Post, "Castro Stalker Worked For The CIA."

## 1 July 1971

"Carver noted that Secretary Laird had requested that our printing plant assist in reproducing the forty-seven volume secret Pentagon study on Vietnam for distribution to the press and others this morning. This request was aborted by the President."

(DDCL in the chair)

## 2 July 1971

attended a meeting at the White House yesterday of the interagency group which is reviewing classification and declassification policy. The President spent an hour with the group and said that he wants: ... and (6) the revocation of all clearances and the return of all classified material held at Harvard, Brookings, Rand, and Cal Tech, as well as the withdrawal of Q clearances held by the Regents of the University of California. A brief discussion followed, and the Executive Director noted that DOD has asked us to provide information on all our contracts with Rand, as well as all clearances held by Rand personnel for our purposes. Acting Director asked that we assemble data pertaining to the President's remarks but that we take no action until the President's guidance has been confirmed and the DD/S has provided a memorandum on it."

"Carver reported that they will probably complete their detailed review of the secret Pentagon papers by 6 July."

"Warner called attention to Secretary Rogers' request that the press permit the Government to review in advance potentially damaging documents from the Pentagon papers."

# SECRET

## <u>6 July 1971</u>

"Carver said that their review of the secret Pentagon study on Vietnam has almost been completed."

## 7 July 1971

"Carver said that he will be attending a meeting today called by Assistant Secretary of Defense for Public Affairs Daniel Henkin. In response to the Director's question he explained that we have seven contracts with Rand; only one is classified, and it is with Rand's Washington office, although some material could have been sent to Santa Monica. The Director concurred and requested a review to determine the essentiality of current proposed contracts with Rand. Houston commented that according to DOD General Counsel Buzhardt, DOD is technically under instructions to lift the security clearances of Rand contractors but has taken no action. Houston recommended against our involvement in this matter and suggested that the Department of Justice query Beacon Press. He noted that, while the article by Stanley Karnow provides good coverage of the topic, it has a State Department flavor. He also recalled that on 25 October we disseminated information similar to that contained in the Evans/Novak article. He mentioned that the Alsop article is probably the most damaging, since it includes material

The Director noted plans to do something about this problem but advised the A-DDP to cope with any adverse reaction by noting the large volume of reports on the political situation in Communist China.

The Director asked that a contingency document be prepared along the lines that we will continue to comply with the Omnibus Crime Control and Safe Streets Act of 1968 which approves of our assistance to various police forces when MAMMAMM authorized by the Justice Department. In response to the DDI's suggestions, the DDS will review what assistance to police forces had been given prior to 1968 and advise.

Manry concurred in the Director's judgment that it is jmpossible to keep all congressional elements happy and that we face a period of increased criticism from this quarter which must be met with firm assurances that what we are being criticized for is fully authorized and justified. Unless the facts justify such a statement, we would be well advised to terminate the activity in question.

Maury recalled that we are obligated to sit down with Chairman Nedzi and review what we do and don't do in the U.S. (see Morning Minutes of MMMM 18 and 19 January). The Director concurred. Mr. Horrock asked what constraints we have On former employees. A lengthy discussion followed, noting in particular that the only legal constraint imposed is the terminal secrecy agreement as reinforced by the MMMMM coults in the Marchetti case. Other than this, there are no constraint except moral ones. Thermer will advise Horrick that thousands of employees have gone through CIA, and it is a matter of considerable pride that only a handful have deported themselves improperly.

Later in the meeting, Houston explained why the allegation that the Agency has tried to muzzle Adams is false.
