

①

Destroying out's
5.3-79

Where we stand

- a) Essentially resolved UPV -
 b) Mixed ACH's - probably resolved - wanting to
 fear bad
 verification Exemption -
 c) (1) Telemetry - We have made absolutely clear to Soviets they
 can not encrypt telemetry relevant to verification
 language they have accepted ~~represent~~ represents major
 concession. ~~on~~

(2) Iran sites -

- lost 4 significant
- Fortunately Jackson sites were not our only means
 of collecting data on Sov. ICBM's
- We are urgently considering measures to make
 up lost - & time involved.

(3) Adequate verifications - This is necessary for us in order
 to sign treaty.

* d) - Tie down number for practitioner -
Possible been on testing of proceedings to release (2)
RU's above numbers permitted under problem solve
limits

* e) Conclude : negotiation on new missile defence
a) Down sizing - 5%
They are at 10-12 %
b) Agree + on what sub-parameters are to
to limited.

- Total
- PBV Impulse
- PBV Type of Propellant
- Stage total impulse
- Stage initial weight ✓
- PBV initial weight ✓

II Treaty Must to W.I. Bars

(3)

- 1) Once we get treaty out - have the facts - many of problems will go away
 - 2) Defeat of treaty would be shattering set back to our foreign policy - (Give public initiated to Sound)
 - World worried and priglesse our actions almost more than anything I can think of.
- Must be in mind That Sell agree
 is an important step not in U.S. Soviet relations -
 - There will be difficult times ahead
 & Sell provides a vital thread of stability :

III

- Treaty does contain real arms control.
- (a) Numerical reductions - 1320 - 1200 - 820 - 2250 - 2250 - Fracturing
 - (b) Qualitative constraints (c) De facto Sell will not be off proportion
will other army negotiations
