## Amembassy CANBERRA

## SECRET Classification

para 2, Canberra 4923. We plan make similar approach Australian

Ambassador here. Fact that such fears still being expressed in Australia

technical circles suggests they have not followed NPT negotiations in

Geneva, where most such concerns have already been discussed and dissipated.

- 4. Thus, for example, it is now generally understood that, far choose. Thus, for example, it is now generally understood that, far from hindering peaceful atomic energy industry, NPT will facilitate general to an express understaking the second express understaking regarding expanded cooperation (Articles III and IV) and by establishing mandatory IAEA safeguards which will remove fear of diversion peaceful uses to weapons purposes, thereby removing what could become serious impediment to international cooperation.
- development nuclear weapons (which understood to mean nuclear bombs and warheads, not delivery systems) and other nuclear explosive devices.

  Such other devices must be prohibited since technology their development indistinguishable from that for nuclear weapons and such devices could be adapted for military use. However, under Article V such devices will be made available at low cost (far less than it would take for any other country to develop them) and without discrimination on bilateral or international basis. As for so-called peaceful "spin-off" from

Amembassy CANBERRA

SECRET Classification

- 6. STATE 130374 regarding nuclear propulsion, being repeated Canberra, indicates there is no basis for concern about propulsion reactors. Similarly NPT does not prohibit establishment facilities for producing enriched uranium, provided safeguards required by treaty are applied.
- 7. Visiting team will be prepared explain safeguards provision, interpretation of treaty and proposed assurances resolution in detail. As regards assurances, of course, US/Australian defense arrangements will be unaffected by NPT and will continue assure basic security. Proposed UN Security Council assurance resolution addressed primarily to concerns of non-aligned countries.
- 8. <u>FOR USUN</u>: Reftels being repeated USUN. Suggest Mission also convey above to Australian DEL.
