██████████ had on national policy. These activities could also help commemorate the 50th anniversary of both the U.S. Air Force and the Central Intelligence Agency, both of which played major roles in ██████████. I consider the availability of declassified imagery examples essential for the success of these initiatives and would like your views on the feasibility of declassifying selected ██████████ imagery in conjunction with my proposed declassification plan for the program data.

(U) An NRO review of this proposal has identified a number of issues related to declassification of ██████████ and its imagery which may require continued classification of certain aspects of ██████████. Thus, I am aware of the complexities involved. Authority for the approval of the declassification rests with the A/DCI. I will finalize my proposal upon receipt of your views.

(U) Realizing that this overall declassification effort will be difficult, time-consuming, and will require extensive Intelligence Community coordination and cooperation, I believe we should request A/DCI approval of the effort no later than the end of March.

(U) My action officer for imagery policy issues is Mr. ██████████. He can be reached at (703) ██████████ (open), ██████████ (secure).
